

Epson Receipt Printer Set-up - Polaris

Step 1-Create a receipt size for printing

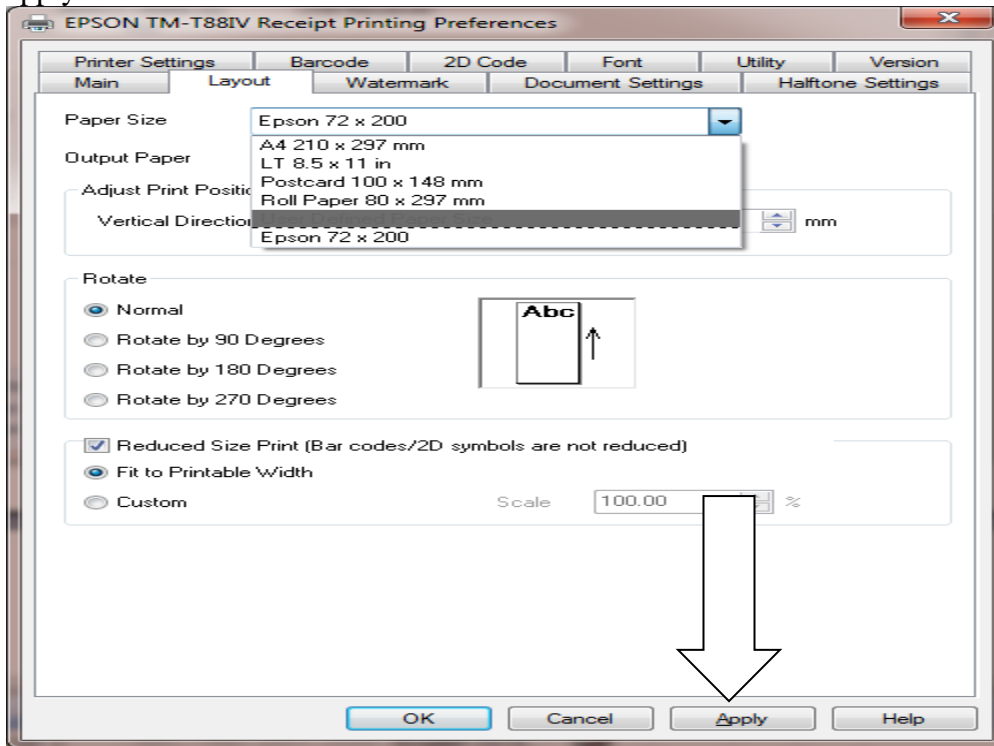

Open Devices and printers from Start window (or control panel)

Highlight Epson Printer – Right click and choose **Printing Preferences**

Choose **Layout** and drop down **paper size** choose “User Defined Paper Size” then apply

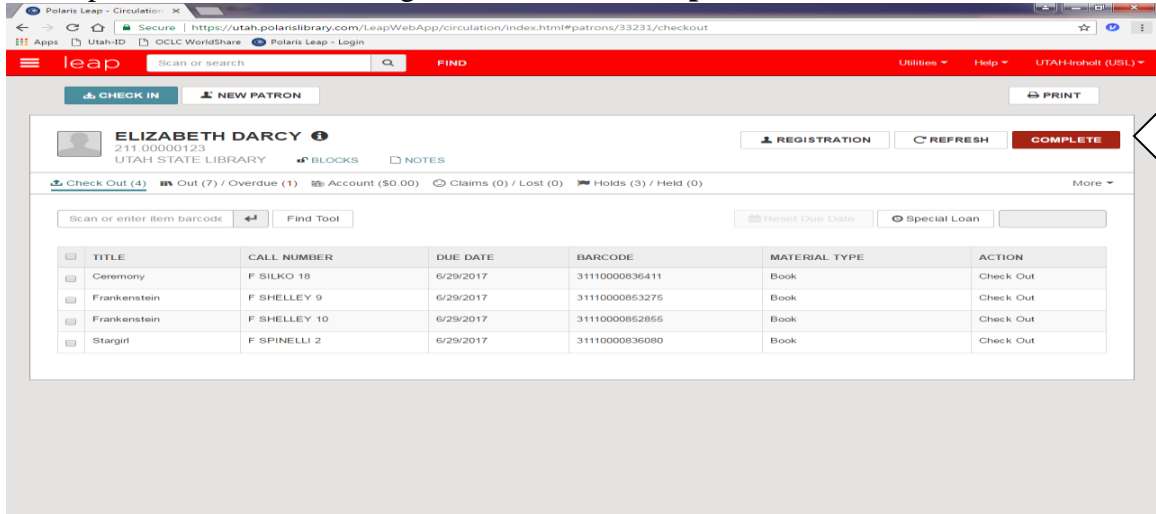

Change the paper size name to Epson 72 x 200 then click Save paper size

Step 2 – Configure Printer settings

In Leap when finished checking-out items click **Complete**

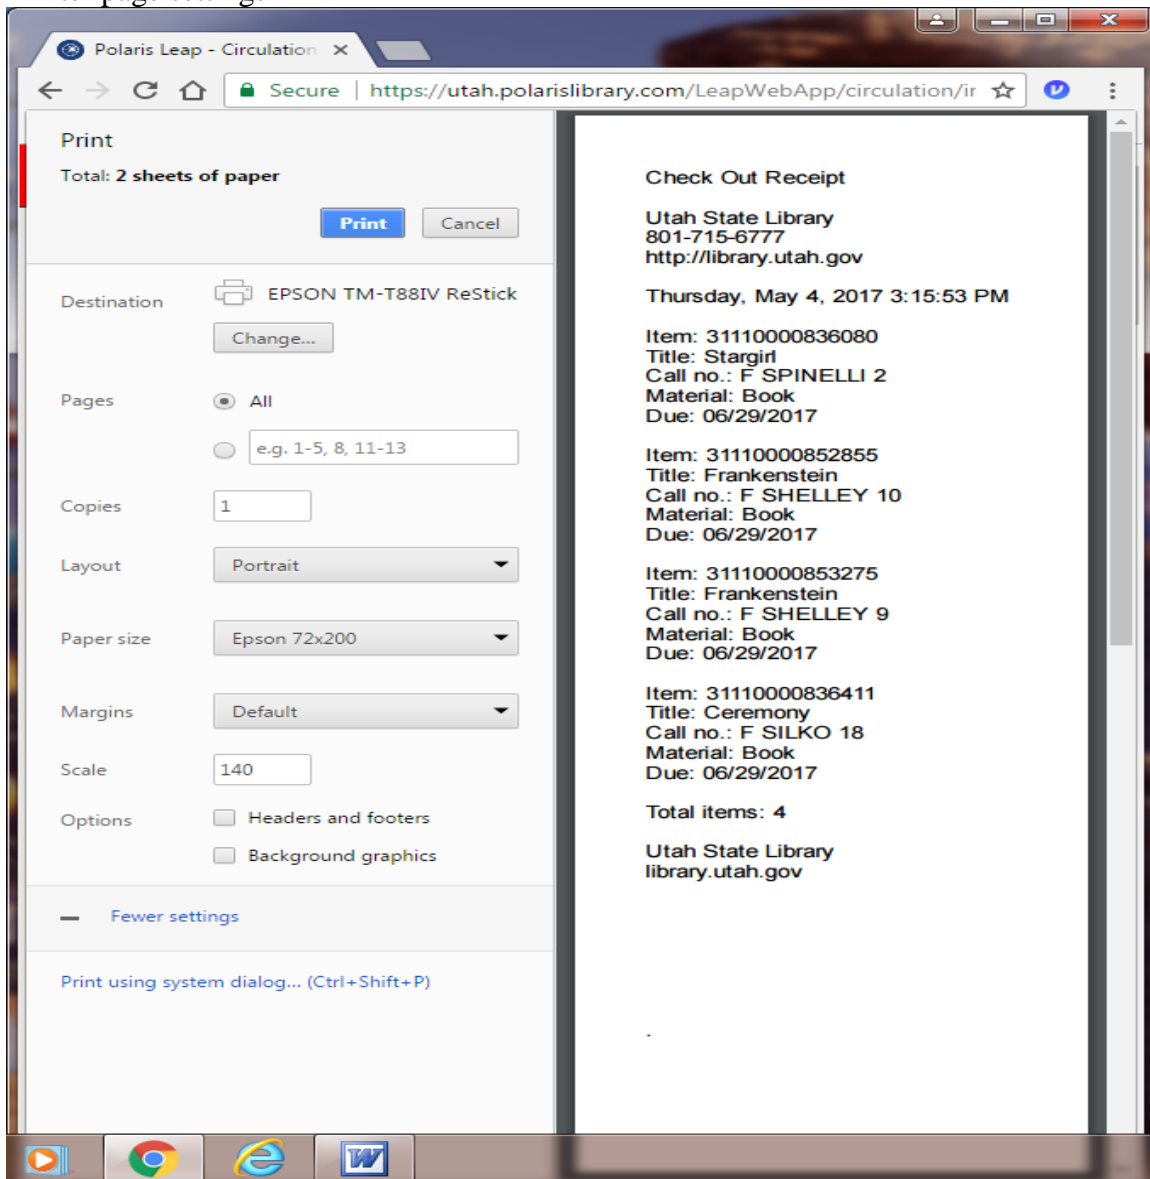

You then need to change the Printer page settings (you'll need to choose + more settings)

- Choose Epson Printer
- Paper size – choose the newly created Epson 72 x 200
- Scale 140
- uncheck header and footer options
- default margins

You should only need to do this once on each computer that has an Epson printer.

Printer page settings

Enter or click **Print** and drum roll.....
Your receipt should print.

Hold slips should print as well with these settings.
